SOUTH PLACER FIRE DISTRICT BOARD OF DIRECTORS

Workshop Meeting Minutes August 09, 2023

The South Placer Fire District Goal Setting Workshop meeting was called to order at 6:03 p.m. on Wednesday, August 09, 2023, by President Terri Ryland.

Board Present:
Terri Ryland, President
Chris Gibson, Vice President
Ken Musso, Clerk

Absent:
None

Gary Grenfell, Director Mike Johnson, Director

Tracy Randall, Director

Dan Bajtos, Director

Staff Present:

Mark Duerr, Fire Chief Kathy Medeiros, Board Secretary Matt Feeley, Deputy Chief Jeff Ingolia, Fire Marshal James Magnuson, Division Chief

Fire Chief Duerr, the Board of Directors, and staff reviewed the last developed goals list from 2022/23 to make recommendations for the 2023/24 goals. Both the Board and Chief Duerr discussed the prior goals, and the importance of establishing new board guidelines given the financial shortfalls of the District.

2022/23 Board Goals

(1) Maintain fiscal stability, explore all options for responsibly increasing revenue, and work with staff to achieve a balanced budget.

Chief Duerr noted that the board has met and maintained these board goals by reorganizing operations in September, forming a PAC of the board, labor, and public to identify additional forms of revenue, reaching out to electees, and balancing the budget for 2022/23 with an expected surplus in the actual final projections for the fiscal year.

The Board agreed that priority must be given to maintain fiscal stability in the agency for the future by continuing to utilize cost-cutting measures and researching additional revenue sources.

2022/23 Administration/District Goals

- 1. Ensure future fiscal solvency as measured by a balanced budget, effectively deploying District resources, reviewing all services and contracts, and evaluating for value to the District.
- 2. Increase positive interactions with the community and brand recognition through improving District branding, improving community outreach through regularly scheduled interactions, and partnering with outside agencies to decrease the wildfire risk in the community.

3. Improve internal service delivery and business operations as measured by updates and publishing Standard Operating Guidelines (SOG), reviewing, updating, and consolidating policies into a single manual, and improving trust and working relationships between labor and management.

It was noted that the 2023/24 budget is balanced, resources are being effectively deployed while awaiting the upcoming master plan report, labor and management have worked effectively to complete the contracts and other processes that are under review. Chief Duerr continued that the District has had many positive interaction opportunities with the public, with many upcoming open houses planned along with Santa in the Hood, Loomis Town Halls, etc. Many positive interactions have occurred with the Bureau of Reclamation, and Hidden Lakes Estates have been successful at increasing education and awareness on wildfire risk and how to be fire-wise. Service delivery is still in process with policy reviews and updates with a hopeful date of completion of year-end, with the SOG not started yet.

The Board discussed the 2023/24 Board Goals and determined that the prior goals should be continued. The Board noted that there was a need to add to the Board Goals to oversee the policy updates and work to adopt the master plan upon completion of the report and begin developing a new strategic plan.

The Board discussed the 2023/24 District Goals and determined that the prior goals should be continued. President Ryland noted that under 2(A) should read "maintain" a balanced budget. Chief Duerr suggested that there be a discussion on increasing District reserves as a possible board goal or policy. The board determined that they would like to see it as a goal to allow for flexibility. Beginning at a 1.5 -2% target for a reserves board goal was suggested.

The Board suggested that education for the community and increasing outreach programs were of utmost importance and should be continued.

Chief Duerr reported that he would take the suggestions of the Board and rewrite the 2023/24 Board and Administration/ District Goals to be presented at the September Board meeting.

There being no further items to be discussed at the workshop, the meeting was adjourned at 6:42 p.m.

Respectfully submitted,

Kathy Mediiros

Special Presentation and amend Item 9B under South Placer Fire District Policy Updates to remove Policy # 1049, Policy # 613, all of Chapter 7 Policy updates. Director Gibson made a motion to approve the amended consent agenda removing items from Item 8 and 9B as requested by President Ryland. The motion was seconded by Director Bajtos.

OLD BUSINESS

<u>District-Wide Photovoltaic Solar Electric Proposal:</u> Staff recommends update on the District-wide Solar Project. Construction is now complete with solar installations at Station 16, 17, 18, and 20. The systems are producing power although there is delay with PG&E to finalize the interconnection. In the future there will be reports presented regarding the data usage.

<u>South Placer Fire District Policy Updates</u>: Staff recommends review and approval of the proposed policy updates. Chief Duerr reported these policies are presented for their first reading for board review and discussion. Chief Duerr continued that Chapter 8 and 613 still need additional review and discussion and will be ready after some minor changes in grammar. He will present the policies again at the next board meeting for approval by the board.

Placer County Grand Jury Report- South Placer Fire District: Fiscal Challenges and Station Closures: Staff recommends discussion and direction to respond to the 2022/23 Grand Jury Report. The Grand Jury released its annual report on June 27, 2023, with South Placer Fire District as one of the review items. The District is bound to respond to the report by October 1, 2023. A first draft has been prepared for response to the grand jury. Chief Duerr recommended the Board further read the response and make comments to be returned for further review by District counsel. He noted that the final edit will be reviewed at the September board meeting with a submittal response to the Grand Jury by September 22nd.

NEW BUSINESS

Contract Approval with HP Sears for Collection Services: Staff recommends discussion and approval for the Chief to execute a new agreement with HP Sears Account Recovery Specialists. In February, the Board approved a new collection agency, American Capital. In May, American Capital suffered a catastrophic fire at its data center resulting in the closure of the 40-year-old agency. The District has found a new vendor with HP Sears, who has offered to maintain the same contract and terms for collection services. HP Sears also has a long-standing relationship with the District's EMS billing agency, Wittman Enterprises. This should be a seamless transition for Wittman and the District. Director Gibson made a motion to approve Chief Duerr to execute a contract with HP Sears Account Recovery Specialists. Director Musso made a second to the motion.

Hearing Conservation and Noise Control Training

605.1 PURPOSE AND SCOPE

The purpose of this policy is to establish and maintain Hearing Conservation and Noise Control Training for members exposed to noise above levels predetermined by state code (8 CCR 5097).

605.2 POLICY

It is the policy of the South Placer Fire District to promote member health and safety by establishing Hearing Conservation and Noise Control Training and requiring member participation. The Hearing Conservation Program shall include parameters for permissible noise exposure limits, monitoring guidelines, audiometric testing procedures, hearing protection equipment and training, and documentation of the district's efforts (8 CCR 5097).

605.3 PROCEDURES

The following procedures shall comprise the Hearing Conservation and Noise Control Training for the South Placer Fire District (8 CCR 5097). The Training Officer shall be responsible for ensuring that the appropriate members are enrolled in the training. Fire captains shall be responsible for ensuring that members attend scheduled testing and training.

605.3.1 NOISE EXPOSURE LIMITS

The South Placer Fire District shall ensure that each member is provided with protection against the effects of noise exposure any time the sound levels exceed those shown in 8 CCR 5096(b) Permissible Noise Exposure Table N-1 when measured on the A-scale of a standard sound level meter at slow response. Feasible engineering or administrative controls shall be utilized for known sound levels exceeding those of the table (8 CCR 5096).

605.3.2 HEARING PROTECTORS

If control measures fail to reduce sound levels to an acceptable level for the amount of exposure, the District shall provide personal protective equipment to all members subject to the noise exposure and require that it be used. Employees shall have the opportunity to select hearing protectors from a variety provided by the District (8 CCR 5098).

The District shall ensure proper initial fit and correct use of hearing protectors and shall provide training in the use and care of the equipment.

605.3.3 HEARING PROTECTOR ATTENUATION

The South Placer Fire District shall evaluate hearing protector attenuation for the specific noise environments in which the protector will be used. Evaluation methods shall be consistent with those described in 8 CCR 5098 Appendix E. The District will provide more effective hearing protectors where necessary (8 CCR 5098(b)).

SPFD Policy Manual

Hearing Conservation and Noise Control Training

605.3.4 MONITORING

The South Placer Fire District shall monitor noise levels in the workplace by either area monitoring or personal monitoring that is representative of a member's exposure, to enable the proper selection of hearing protectors (8 CCR 5097(b)).

605.3.5 AUDIOMETRIC TESTING PROGRAM

The South Placer Fire District shall provide audiometric testing and evaluation to all members who are exposed to noise levels in excess of those permissible pursuant to 8 CCR 5096(b) Permissible Noise Exposure Table N-1. The District shall provide baseline audiometric testing (preceded by at least 14 hours without exposure to workplace noise) within six months of the first noise exposure, and annually thereafter (8 CCR 5097(c)).

Each member's annual audiogram shall be compared to that member's baseline audiogram to determine if the audiogram is valid and if a standard threshold shift has occurred (8 CCR 5097(d)).

All audiometric testing shall be conducted by licensed or certified medical professionals in compliance with state testing requirements (8 CCR 5097(c)(3) and 8 CCR 5097(e)).

605.4 TRAINING RECORDS

This policy identifies which members must receive training, the required curriculum, supervisory training and responsibilities and training record documentation (8 CCR 3395).

606.1.1 DEFINITIONS

Definitions related to this policy include (8 CCR 3395(b)):

606.2 POLICY

It is the policy of the South Placer Fire District to promote member health and safety by establishing a heat illness prevention training program and requiring member participation. In addition to the safety precautions described in the Heat Illness Prevention Program Policy, the District shall ensure that effective training is provided to members before the member begins work that should reasonably be anticipated to result in heat illness (8 CCR 3395(h)).

- (b) The district's procedures for complying with the state requirements for the prevention of heat illness.
- (c) The importance of frequent consumption of small quantities of water and electrolyte replacement fluid, up to 4 cups per hour, when the work environment is hot and members are likely to be sweating more than usual in the performance of their duties.
- (d) The concept and importance of acclimatization.
- (e) The different types of heat illness, the common signs and symptoms of heat illness and the possibility that heat illness may progress quickly from mild to serious or lifethreatening.

610.2 POLICY

It is the policy of the South Placer Fire District to provide thorough and recurrent wildland fire shelter deployment training to all district members who may be exposed to wildland fire conditions.

The highest priority for a firefighter in wildland fire conditions is to stay out of situations that can lead to entrapment. A fire shelter does not guarantee safety. It is a last resort in emergency conditions when there are no other options.

610.3 PROCEDURE

The Training Officer shall be responsible for scheduling wildland fire shelter deployment training annually, prior to the anticipated beginning of the main wildland fire season. All new members shall receive wildland fire shelter deployment training prior to being assigned to field operations.

 - Proper use of fire shelter shake handles. Members should practice locating and grasping the shake handles correctly to ensure that the shelter opens quickly, allowing the user to get inside the tent shelter quickly.
 - 3. Deployment of the shelter while lying on the ground, including practical exercises in deploying the shelter from the ground.
 - 4. Practical exercise of discarding extra gear and removing the shelter while escaping and utilizing the partially unfolded shelter as a heat shield while escaping.

The Training Division will create and maintain an individual training file for each member of the District. The training files will be kept separate from the district's personnel files. The member training files should be used to document a member's training courses and training-related programs and activities.

The training files shall not be used to store any work-performance records, member conduct records, member disciplinary records or any other documentation that is not specifically training-related. Information entered into the member training files will be a permanent part of that record. New members should submit to the Training Division copies of any licenses, certifications and coursework that are pertinent to their position with the South Placer Fire District.

The Training Division staff may request that new members obtain and submit copies of any previous employer training files for inclusion in their South Placer Fire District training file.

- (b) For a record that requires data compilation, extraction, or programming.

801.7 RELEASE RESTRICTIONS

In balancing the public's right to access public records, the statutory individual right of privacy and the need for the South Placer Fire District to be able to efficiently perform its duties, the Legislature has established certain categories of records that may be exempt from public disclosure. A complete list of statutory exemptions is found in the California Public Records Act. Absent a valid court order or other statutory authority, the Public Records Act exempts certain records from disclosure in whole or part. Those pertaining to the South Placer Fire District include but are not limited to the following (Government Code § 7920.000 et seq.):

- (a) Preliminary drafts, notes, or interagency or intra-agency memoranda that are not retained by the South Placer Fire District in the ordinary course of business, provided that the public interest in withholding such records clearly outweighs the public interest in disclosure. If a draft contains facts and recommendations, the facts must be disclosed but the recommendations may be withheld.
- (b) Records pertaining to pending litigation to which the South Placer Fire District is a party or to claims made, but only until such litigation or claim has been finally adjudicated or otherwise settled. The complaint, claim, records filed in court, records that pre-date the suit, reports about projects or activities that ended in litigation, and settlement records are subject to disclosure.
- (c) Personnel, medical, or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy.
 - Home addresses, home telephone numbers, personal cellular telephone numbers, and birth dates of members are exempt from disclosure except in certain circumstances as provided in Government Code § 7927.700.
- (d) Records of complaints to or investigations conducted by the South Placer Fire District for law enforcement purposes.
- (e) Attorney-client discussions are confidential.
- (f) Test questions, scoring keys, and other examination data used to administer a licensing examination, examination for employment, or academic examinations.
- (g) Contents of real estate appraisals or engineering or feasibility estimates and evaluations made for or by the South Placer Fire District relative to the acquisition of property or to prospective public supply and construction contracts, until all of the property has been acquired or all contract agreements executed.
- (h) Records whose disclosure is exempt or prohibited pursuant to provisions of federal or state law, including but not limited to provisions of the Evidence Code relating to privilege.
- (i) Records that relate to archeological site information.

The South Placer Fire District retains the discretion to claim an exemption from public disclosure for any record that does not qualify for a specific exemption under the Public Records Act when the South Placer Fire District determines that the public interest served by not making the record public clearly outweighs the public interest served by disclosure.

SPFD Policy Manual

Release of Records

Records subject to exemption may nevertheless be made available for inspection if waiving the exemption will serve the public interest, as determined by the South Placer Fire District on a case-by-case basis. However, the South Placer Fire District's determination to disclose a record, which may otherwise be exempt from disclosure, does not constitute a waiver with respect to any other records (Government Code § 7921.505).

When the Custodian of Records determines that a record is exempt and disclosure should be denied, the Custodian of Records should contact legal counsel for the District for further guidance. If legal counsel concurs with denying disclosure of the record, the Custodian of Records shall log the denial on the Public Records Act request log and provide a summary of the denial, in writing, to the Fire Chief.

801.8 RELEASED RECORDS TO BE MARKED

SPFD Policy Manual

Waste Water Discharge

1102.1 PURPOSE AND SCOPE

The practices detailed in this policy are intended to minimize run-off releases associated with firefighting, fire training, emergency scene spills and discharges, trauma scene waste management and fire facility maintenance activities.

1102.2 POLICY

It is the policy of the South Placer Fire District to adhere to the regulations established by the state Regional Water Quality Board for this region.

1102.3 NON-EMERGENCY ACTIVITIES

1102.3.1 DISCHARGES ASSOCIATED WITH FIRE TRAINING ACTIVITIES

Training activities should be performed in a manner that reduces or prevents discharges to the storm water systems. When discharge into the storm water system is unavoidable (i.e. equipment failures), the following measures should be implemented to minimize the impact to water quality:

- Fire training should be conducted, where feasible, in facilities where run-off controls that protect the storm drain system have been engineered and built into the facility.
- Direct water flows to landscape or greenbelt areas whenever possible.
- When flowing water cannot be contained in the landscape areas, survey the area prior to the training exercise to ensure that debris will not enter the storm water system as a result of water flow generated during the drill.
- When practicable and necessary, divert flows to the sewer, with the permission of the local sewer agency.
- Use fog streams for short durations.
- Use lower gallon per minute nozzle settings.
- Prevent discharge of foam to the storm drain system. If training activities involve the
 use of foam, block off all potentially affected storm drain inlets with plastic sheeting
 and sandbags, construct a temporary berm, collect the run-off and discharge to the
 sanitary sewer after a de-foaming agent has been applied.

1102.3.2 VEHICLE AND EQUIPMENT WASHING AND CLEANING

The following should be considered in order to prevent or reduce the discharge of pollutants to the storm drain system from vehicle and equipment washing and cleaning:

- Use cleaning methods that employ the minimal use of water, such as a wet chamois or non-water rinse, when applicable.
- Limit the use of all cleaning agents and when feasible, use only water.

SPFD Policy Manual

Waste Water Discharge

- Remove debris from any area or facility that is used for washing and/or cleaning vehicles.
- Direct water flows to landscape or green areas or contain the water on-site and allow it to evaporate and infiltrate whenever it is safe to do so without causing damage or erosion.
- Use designated wash areas (preferably covered and bermed) to contain and/or divert the wash water to the sewer, either through the use of a wet-vac or a plumbed sanitary sewer connection.
- Use self-contained water recycling systems.
- Use off-site commercial washing and steam-cleaning facilities. Prohibit all steam cleaning discharge from entering the storm drain. Direct all steam-cleaning discharge to the sanitary sewer.

1102.3.3 VEHICLE FUELING

The following measures should be taken to reduce the impact to storm water:

- As reasonable, t The fueling area should be protected from storm water. by installing a canopy.
- Pave fueling area surfaces with Portland cement concrete (or other equivalent smooth impervious surface) with a 2 percent to 4 percent slope to prevent puddles.
- Keep perimeter drains clear of debris at all times.
- If a perimeter drain is not installed, install a berm or graded area to prevent run-off of storm water and spilled liquids.
- Use a dead-end sump to collect spills or install an oil-water separator.
- Utilize vapor recovery nozzles to help control drips as well as air pollution.
- Maintain a spill control kit at the refueling site.
- When fueling fire vehicles, members should take the following measures to prevent fuel spills and leaks:
 - Avoid fueling during rain conditions in fuel areas that do not have a canopy.
 - When necessary to refuel during rain conditions in fueling areas that do not have a canopy, the person refueling shall not leave the fueling area while fuel is flowing from the pump.
 - Avoid topping-off fuel tanks.
 - Use absorbent material on small spills and for general cleaning rather than hosing down an area. Remove the absorbent material promptly and dispose as hazardous waste.
 - Avoid mobile fueling during non-emergency events if the vehicles and/or equipment can be brought to the refueling facility.

SPFD Policy Manual

1102.3.4 VEHICLE AND EQUIPMENT MAINTENANCE AND REPAIR

A "dry shop" can help prevent or reduce the discharge of pollutants from vehicle and equipment maintenance as follows:

- Conduct vehicle and equipment maintenance in areas where precautions have been taken to prevent spills from entering the storm drain system.
- Use dry cleaning methods in maintenance and repair areas unless adequate precautions have been taken to prevent the discharge of wash water to the storm drain.

1102.3.5 HOSE WASHING AND CLEANING

The discharge of pollutants from washing and cleaning fire hoses and equipment may be prevented or reduced by using the following safeguards, as appropriate:

- Design new areas or facilities that will be used for washing and/or cleaning fire hoses in a way that prevents wash water or other debris from entering the storm drain or from receiving water that has not been adequately treated.
- Direct water flows to landscaped or green areas, or contain the water on-site and allow it to percolate through plant material or the landscape, or to evaporate completely whenever it is safe to do so without causing damage or erosion.
- Use designated wash areas (preferably covered and bermed) to contain and/or divert the wash water to the sewer either through the use of a wet-vac or a plumbed sanitary sewer connection.
- When cleaning the wash area, use wet mop cleaning methods in small areas, when feasible.
- Use methods of cleaning fire hoses that employ the minimal use of water, such as high-pressure spray washers, when applicable.
- Consider the use of biodegradable cleaning agents.

1102.3.6 FACILITY MAINTENANCE

Facility maintenance should be conducted as follows:

- Use dry cleaning methods (e.g., sweeping) to clean impervious hardscape areas, such as apparatus floors, driveways, patios and walkways. Place debris in receptacles for solid waste disposal.
- Maintain landscape areas as required to limit introduction of leaves and other landscape waste into the storm water system.
- Monitor and maintain irrigation systems as required to minimize off-site discharge of irrigation run-off.
- Provide spill kits at the work site and use them for cleaning when appropriate.
 Dispose of spilled material in accordance with applicable regulations. See applicable

SPFD Policy Manual

Waste Water Discharge

regulations listed by the California Environmental Protection Agency (Cal/EPA) at website.

 Maintain and repair structures using methods that do not result in the release of water, soil or waste into the storm drain system.

1102.3.7 SOLID WASTE AND HAZARDOUS MATERIALS STORAGE AREAS

Solid waste and hazardous materials storage areas should be maintained as follows:

- There should be a canopy or roof over solid waste and hazardous materials storage areas.
- There should be secondary containment (e.g., a metal or plastic pan with a raised edge) for hazardous materials storage areas.
- All trash and solid waste receptacles should have lids. Keep lids closed to prevent contact with rainfall and to ensure containment of waste within the storage area.

1102.4 EMERGENCY ACTIVITIES

It is not always possible to prevent discharge that occurs during emergency firefighting activities (e.g., flows necessary for the protection of life and property). However, when practicable, the following should be considered.

1102.4.1 TRAUMA SCENE CLEANUP

Trauma scene wastes (e.g., blood and human tissue) may be generated at various types of crime, collision or accident scenes. This type of waste can pose a health risk to those responsible for overseeing and conducting the cleanup. The following procedures should be used when practicable to protect members and prevent any unnecessary discharge of material into the storm drain.

1102.4.2 CLEANUP OF TRAUMA SCENE WASTE ON PUBLIC PROPERTY

The Incident Commander should determine whether there are sufficient resources for the cleanup of trauma scene waste on public property (e.g., personnel trained to deal with bloodborne pathogens).

When a scene requires decontamination and cleanup beyond the capability of on-scene emergency responders, a registered Trauma Scene Waste Management Practitioner (TSWMP) is necessary. These practitioners are registered with the Department of Public Health (DPH) and will conduct cleanup operations in accordance with the Medical Waste Management Act (Health and Safety Code § 118321 et seq.). A list of practitioners can be obtained from the DPH website.

 Before proceeding with site cleanup, emergency responders must have the proper personal protective equipment (PPE), adequate supplies of bleach and sufficient water to properly complete the operation. Universal precautions must be utilized during any cleanup operation. Additional information and guidance for cleanup policies and

procedures for bodily fluids may be obtained 24 hours a day by contacting the county health department.

- Personnel shall wear gloves when washing or handling contaminated equipment, clothing or other materials. Additional PPE may be necessary if there is the potential for splashing.
- The Sheriff/Coroner should remove any human tissue or body parts at the scene of a
 fatality, following its own policies and procedures. The Sheriff/Coroner will generally
 not respond to a non-fatal incident for the purpose of human tissue removal.
- Human tissue, body parts or blood/body fluids in a solid state should not be allowed
 to enter a storm drain. Tissue found in the storm drain system should be removed to
 the maximum extent practicable.
- Sharps waste shall be disposed of in a rigid sharps container. The sealed container shall be disposed of in an appropriate manner in compliance with the Medical Waste Management Act.
- The county health department may be contacted, if needed, for consultation or assistance in trauma scene management or questions regarding legal disposition of medical waste.
- For incidents on freeways, coordination should occur with the California Highway Patrol regarding the potential use of California Department of Transportation (CALTRANS) for cleanup of trauma scene waste.
- When a TSWMP is called to a scene, South Placer Fire District members are responsible for staying on-scene until the TSWMP arrives. Only in highly unusual lifethreatening emergency situations shall a trauma cleanup scene be abandoned by members prior to the arrival of the TSWMP.
- Reasonable efforts should be made to protect the storm drain system when conducting cleanup of a trauma scene. Notifications regarding significant potential impacts to the storm drain system and additional information and guidance may be obtained 24 hours a day by contacting the county.

1102.4.3 SPECIFIC CLEANUP PROCEDURES FOR SMALL SPILLS

South Placer Fire District members may decontaminate and then wash down small amounts of human blood/body fluids that are still in a liquid state. A small spill is defined as a spill that can be thoroughly and completely disinfected with one gallon of 10 percent chlorine disinfectant. This determination should be made with the understanding that multiple applications may be necessary to accomplish full disinfection.

 Members shall wear PPEs to protect skin, mucus membranes, lungs and clothing from chlorine or trauma scene waste.

SPFD Policy Manual

Waste Water Discharge

- Members shall apply disinfectant to the liquid bio-waste (foam may develop) and let it sit for a minimum of 10 minutes.
- After 10 minutes, members shall wash down the area using a fire hose or pressurized water extinguisher.
- In non-emergency situations and when circumstances permit, members should also:
- Attempt to move trash or miscellaneous debris from the path of the run-off so no additional or unnecessary material is discharged or carried into the storm drain.
- If there is a choice between directing the run-off down a storm drain or a sewer, use the sewer.
- Porous surfaces, such as asphalt, may require multiple repetitions to completely disinfect and thoroughly clean the area.

If the material requiring cleanup meets any of the following criteria, emergency responders shall call a TSWMP:

- The amount of liquid waste at the incident reasonably exceeds the ability to thoroughly disinfect it with one gallon of 10 percent chorine disinfectant.
- The material requiring cleanup is human tissue or a body part and Sheriff/Coroner personnel will not be responding to the scene to remove the material because the incident did not involve a fatality.
- A TSWMP may be requested through dispatch when needed.
- When a TSWMP is called to a scene, South Placer Fire District members are responsible for staying on-scene until the TSWMP or other responsible agency (e.g., law enforcement, public works) arrives. In no case shall the scene be abandoned prior to the arrival of the TSWMP.

1102.4.4 CLEANUP OF TRAUMA SCENE WASTE ON PRIVATE PROPERTY
South Placer Fire District personnel should not clean up trauma scene waste on private property.

1102.4.5 DISCHARGES ASSOCIATED WITH EMERGENCY FIREFIGHTING ACTIVITIES To the extent allowed by the circumstances at the scene and without compromising the health and safety of members or the public, emergency firefighting activities should be performed in a manner that avoids or minimizes discharges to the storm water system, including the following:

- If possible, avoid directing firefighting flows directly on erodible surfaces if run-off will enter receiving waters or storm drains.
- If possible, apply firefighting flows so run-off will flow over vegetated areas prior to entering receiving waters or storm drains.

1102.4.6 DISCHARGES ASSOCIATED WITH HAZARDOUS MATERIAL SPILLS

The county is the Certified Unified Program Agency (CUPA) with countywide responsibility for coordinating a response to hazardous material spills. The South Placer Fire District is a participating agency with specified responsibilities within the jurisdiction. The South Placer Fire District operates under a Hazardous Materials Area Plan that describes procedures for the allocation of resources and assigns tasks during a hazardous materials release emergency. Fire district and law enforcement members shall respond to hazardous material releases according to response protocols established by each district under oversight of CUPA.

1102.4.7 NOTIFICATION OF SPILLS, RELEASES AND DISCHARGES

Spills, releases and discharges of pollutants shall be reported by the Incident Commander as required by all applicable state and federal laws. In addition, any such spills, releases and illegal discharges with the potential to endanger health, safety or the environment shall be reported by the Incident Commander to the county within 24 hours after discovery. If it is safe to do so, necessary actions shall be taken to contain and minimize the spill, release or discharge.

District members should also encourage fire service and other groups to use facilities and lodging that are protected by automatic fire detection and suppression systems for their sponsored activities.

Subject to available resources, the South Placer Fire District will upgrade to current standards any district-owned or operated facilities that do not have automatic fire detection and suppression systems.

Members traveling on District business shall seek hotel or motel accommodations that are protected by automatic fire detection and suppression systems. When protected lodging is not available within a reasonable distance from the traveler's destination, or if the cost of protected lodging is 25 percent above the cost of unprotected lodging, unprotected lodging facilities may be used with the approval of the Division Chief.

SOUTH PLACER FIRE PROTECTION DISTRICT INTEROFFICE MEMORANDUM

TO: BOARD OF DIRECTORS

FROM: CHIEF MARK DUERR

SUBJECT: BOARD MEETING AGENDA STAFF RECOMMENDATIONS

DATE: WEDNESDAY, SEPTEMBER 13TH, 2023

CC: BOARD SECRETARY KATHY MEDEIROS

Agenda Item: Placer County Grand Jury Report – South Placer Fire District: Fiscal Challenges and Station Closures.

Action Requested: Staff recommends final discussion and approval of response to the 2022/23 Grand Jury Report.

Background: The Grand Jury released its annual report on June 27th, 2023, with South Placer Fire District as one of the review items. The District is bound to respond to the report by October 1, 2023.

In FY 22/23, the Grand Jury chose to examine the District due to the failed benefit assessment and the actions taken since to reestablish a firm financial footing. The Report's findings include:

- F1: South Placer Fire District existing revenue streams are insufficient for the district to maintain their current level of operations.
- F2: South Placer Fire District Division 2 parcel assessment is insufficient for the division to maintain their current level of operations.
- F3: South Placer Fire District constituents seem unaware of the district's performance and operating needs.
- F4: Budget shortfalls will result in additional justification for reorganization of South Placer Fire District.

And the Grand Jurys recommendations include:

- R1: South Placer Fire District explore other revenue resources by September 20, 2023, to maintain their current level of operations.
- R2: South Placer Fire District Division 2 continue efforts to reintroduce a special assessment ballot measure, that will also adjust for inflation, by November 30, 2023.
- R3: South Placer Fire District increase constituents' awareness of district performance and operating costs by proactively advising the public through town hall meetings, newsletters, social media, email, and direct mail before the next special election date by November 30, 2023.

• R4: South Placer Fire District and the Local Agency Formation Commission reorganize and consolidate administrative and/or operational functions with neighboring districts by December 31, 2023.

Staff has prepared a draft response that has been reviewed by District legal counsel for your review and approval.

Impact: Unknown

Mark Duerr Fire Chief September 22, 2023

The Honorable Alan V. Pineschi Presiding Judge of the Superior Court County of Placer P.O. Box 619072 Roseville, CA 95661

RE: South Placer Fire District Fiscal Challenges and Station Closures

After carefully reviewing the findings and recommendations of the Placer County Grand Jury, we are pleased to submit the following responses to the Grand Jury's final report – South Placer Fire District, Fiscal Challenges, and Station Closures.

Findings

We agree with Findings F2 and F3.

We disagree wholly or partially with Findings F1 and F4.

F1. When the Grand Jury report was published, the District had already made significant changes, listed below, due to the failed benefit assessment. If the question in Finding One is based on the time of the benefit assessment process or pre-operational changes of September 2022, then the District agrees with the Finding. However, if, based on the time of publication, the District disagrees with the Finding based on the following:

After the District Benefit Assessment failed to gain majority support in July 2022, the District acted swiftly to address the budget imbalance. Revenues needed to be increased to maintain the current level of service in July 2022, which was the main point of the benefits assessment. In September 2022, the District reorganized its operations to deliver a service commensurate with its revenue. The necessary changes included:

- Closure of Station 19 at 7070 Auburn Folsom Road.
- Relocate District staff from an open station (Station 15 at 4650 East Roseville Parkway) to a formerly closed station (Station 16 at 5300 Olive Ranch Road) for better response times.
- Closure of a Truck company an apparatus specializing in search and rescue, ventilation, and auto extrication because this equipment lacks sufficient firefighting capabilities for delivering water at a fire. District resources are spread too far to leave an area without fire suppression capabilities.
- Reduction in staff by six full-time equivalent positions through attrition.

o These six positions were the third firefighter on the engine companies at Station 15 (now 16) and Station 20.

It is the District's position that these changes were necessary to provide a service level consistent with revenues, and in making these changes, the District will be in a more stable financial position in the future.

F4. Further reorganization within the District is not out of the question; however, the Board and the District have worked diligently to manage and reduce expenses to mitigate the risks associated with fluctuating revenues and ever-increasing costs. The District has taken aggressive steps to increase its reserves to address possible downturns in revenue, and it has renegotiated labor contracts to decrease certain expenses. For instance, the new labor contracts now place the post-employment health care (OPEB) responsibility on the employee groups that benefit, reducing the District's overall OPEB liabilities by nearly \$300,000 per year.

These efforts enabled the District to position itself for long-term stability but only within its new service delivery model. Future reorganizations may still be required, and to prepare for this possibility, the District has partnered with LAFCO in 2023 to commission an independent third party to assess its operations and provide a Master Plan. This plan will provide much-needed data and insight into the District's financial position current operational deployment, and recommend future changes based on call volume, density, travel time, severity, and available resources.

Recommendations

Recommendations numbered R1 and R3 have been implemented.

R1: The Board established a committee to explore all possible revenue sources. The committee has regularly met with Board members, staff, labor, and the public to identify opportunities for increasing District revenue. To address the shortage of staff, the District applied for a FEMA Grant known as SAFER, which is a short-term solution. Additionally, a regional grant was submitted to replace outdated radio equipment. The committee recognizes that these are only temporary solutions and has been exploring long-term revenue options, such as seeking local, regional, state, and federal funding sources, reviewing current charges, making necessary adjustments, and considering another benefits assessment or Special Tax proposition.

R3: The District shares the same concern as the Grand Jury regarding increasing public awareness regarding the issues mentioned in the recommendation. To address this concern, the District is taking various measures such as strengthening its social media presence, organizing quarterly open houses, actively participating in community meetings and events, collaborating with local chambers of commerce, and reintroducing an annual report for public review.

Recommendations numbered R2, and R4 require further analysis. The further analysis will be completed by February 28, 2024.

R2: The District will need time to analyze whether a Proposition 218 benefits assessment is appropriate for increasing revenue. The previous attempt brought to light several concerns that will present challenges in the second attempt. The two major concerns are the cost disparities amongst various property types and being able to provide a proper explanation to all members of the community as to the amount they are being asked to tax themselves. The second concern is Initiative #21-0042A1 (aka #1935), or "The Taxpayer Protection and Government Accountability Act." According to the California Special Districts Association, this initiative would restrict the ability of local agencies and the State of California to fund services and infrastructure by:

- Adopting stricter rules for raising taxes, fees, assessments, and property-related fees.
- Amending the State Constitution, including portions of Propositions 13, 218, and 26, among other provisions, to the advantage of the initiative's proponents and plaintiffs, creating new grounds to challenge these funding sources and disrupting fiscal certainty.
- Restricting the ability of local governments to issue fines and penalties to corporations and property owners that violate local environmental, water quality, public health, public safety, fair housing, nuisance, and other laws and ordinances.

The initiative includes provisions that would retroactively void some state and local taxes or fees adopted after January 1, 2022, if they did not align with the provisions of this initiative. This may also affect indexed fees that adjust over time for inflation or other factors. Effectively, it would allow voters throughout California to invalidate the prior actions of local voters, undermining local control and voter-approved decisions about investments needed in their communities.

This initiative will go to the Statewide Ballot on November 5, 2024, and poses a substantial threat to the District should it proceed with a Prop 218 Benefit assessment before the outcome of that initiative. If the District assessment passed below the 66.6% supermajority required by this initiative, the District may be required to repeat the process under the new initiative, leaving the District exposed to the increased cost of holding another election (approximately \$75-90k) and the possibility of losing and reimbursing any funds collected. The District is making every effort to be a good financial steward of community resources. It considers the risk too high until the public can vote on this initiative.

R4: A reorganization and/or consolidation, merger, annexation, etc., would require extensive research and analysis to be successful. While the District is open to expanding its service to assist the neighboring communities, the first step is understanding all the issues and performing rigorous analysis to ensure success. The County, through LAFCO, is undergoing a Municipal Service Review (MSR) for fire protection on the West Slope of Placer County. It would be imprudent to proceed under the Grand Jury's December 31, 2023, timeline without first reviewing the MSR and its recommendations. Once the MSR is approved and available, the Board could consider Grand Jury recommendation R4.

We want to take this opportunity to thank the members of the Grand Jury for their service to this community and all of Placer County. Your work is often thankless, demanding, and cloaked in mystery, but know that your service and dedication are appreciated.

Respectfully,

Teresa Ryland Board President South Placer Fire District

SOUTH PLACER FIRE DISTRICT INTEROFFICE MEMORANDUM

TO: BOARD OF DIRECTORS

FROM: CHIEF MARK DUERR

SUBJECT: BOARD MEETING AGENDA STAFF RECOMMENDATIONS

DATE: WEDNESDAY, SEPTEMBER 13TH, 2023

CC: BOARD SECRETARY KATHY MEDEIROS

Agenda Item: California Public Employee Retirement System (Cal PERS) 2024-25
Contribution Rate Increases and Employer Payment of Unfunded Liability
Increases.

Action Requested: Staff recommends reviewing and discussing CalPERS's most recent Annual Valuation Reports for the District's four retirement plans.

Background: The Fire District received the updated actuarial valuation of our four pension plans. For 2023/2024, the lump sum prepayment of the District's Unfunded Accrued Liability (UAL) payment was \$961,913 across all retirement plans. The lump sum payment for the 2024/2025 UAL covering all plans has increased to \$1,270,975

Reduction in the discount rate, current and past poor performance of CalPERS investments, and cost-sharing of PEPRA plans have set the 2024/25 UAL payment at the stated payment of \$1,270,975 across all plans. This is an increase of \$309,062 in the UAL payment for the next budget year.

Impact: Increased cost of Employee Benefits, informational.

June 30, 2022 Actuarial Valuation Reports

August 9, 2023

Circular Letter: 200-041-23

Distribution: VI

To: All Public Agency Employers

Purpose

The purpose of this Circular Letter is to inform you the 2022 actuarial valuation reports for contracting agencies are now available and uploaded in myCalPERS to view.

Employer and Member Contribution Requirements

The 2022 valuation reports use demographic data and financial information through June 30, 2022 to set the required contributions for public agency employers and certain members for fiscal year (FY) 2024-25.

As required by the Public Employees' Pension Reform Act (PEPRA), members hired on or after January 1, 2013 (PEPRA members) are subject to possible increases or decreases to their contribution rate based on the results of the annual actuarial valuations. Some PEPRA member groups will experience an increase to their contribution rate for FY 2024-25 as a result of the 2022 valuations. Refer to the cover letter of the report for information on the PEPRA member contribution rate(s) for your rate plan for FY 2024-25.

The recently reported preliminary investment return of 5.8% for FY 2022-23 has no impact on required employer or member contributions for FY 2024-25. The impact of this investment loss, due to its being less than the assumed discount rate of 6.8% will be reflected in the June 30, 2023 valuation reports, available in August 2024, and will not impact employer contribution requirements until FY 2025-26.

More Information

The June 30, 2022 actuarial valuation reports will also be available on the CalPERS website by the end of September. You can find the Public Agency Valuation Reports on our website.

Safety Plan of the South Placer Fire District (CalPERS ID: 3655967024) Annual Valuation Report as of June 30, 2022

Dear Employer,

Attached to this letter is the June 30, 2022 actuarial valuation report for the rate plan noted above. **Provided in this report is the determination of the minimum required employer contributions for fiscal year (FY) 2024-25**. In addition, the report contains important information regarding the current financial status of the plan as well as projections and risk measures to aid in planning for the future.

Because this plan is in a risk pool, the following valuation report has been separated into two sections:

- Section 1 contains specific information for the plan including the development of the current and projected employer contributions, and
- Section 2 contains the Risk Pool Actuarial Valuation appropriate to the plan as of June 30, 2022.

Section 2 can be found on the CalPERS website (www.calpers.ca.gov). From the home page, go to "Forms & Publications" and select "View All". In the search box, enter "Risk Pool" and from the results list download the Safety Risk Pool Actuarial Valuation Report for June 30, 2022.

Actuarial valuations are based on assumptions regarding future plan experience including investment return and payroll growth, eligibility for the types of benefits provided, and longevity among retirees. The CalPERS Board of Administration (board) adopts these assumptions after considering the advice of CalPERS actuarial and investment teams and other professionals. Each actuarial valuation reflects all prior differences between actual and assumed experience and adjusts the contribution requirements as needed. This valuation is based on an investment return assumption of 6.8%, which was adopted by the board in November 2021. Other assumptions used in this report are those recommended in the CalPERS Experience Study and Review of Actuarial Assumptions report from November 2021.

Required Contributions

The table below shows the minimum required employer contributions for FY 2024-25 along with estimates of the required contributions for FY 2025-26. Employee contributions other than cost sharing (whether paid by the employer or the employee) are in addition to the results shown below. The required employer contributions in this report do not reflect any cost sharing arrangement between the agency and the employees.

PEPRA Miscellaneous Plan of the South Placer Fire District (CalPERS ID: 3655967024) Annual Valuation Report as of June 30, 2022

Dear Employer,

Attached to this letter is the June 30, 2022 actuarial valuation report for the rate plan noted above. **Provided in this report is the determination of the minimum required employer contributions for fiscal year (FY) 2024-25**. In addition, the report contains important information regarding the current financial status of the plan as well as projections and risk measures to aid in planning for the future.

Because this plan is in a risk pool, the following valuation report has been separated into two sections:

- Section 1 contains specific information for the plan including the development of the current and projected employer contributions, and
- Section 2 contains the Risk Pool Actuarial Valuation appropriate to the plan as of June 30, 2022.

Section 2 can be found on the CalPERS website (www.calpers.ca.gov). From the home page, go to "Forms & Publications" and select "View All". In the search box, enter "Risk Pool" and from the results list download the Miscellaneous Risk Pool Actuarial Valuation Report for June 30, 2022.

Actuarial valuations are based on assumptions regarding future plan experience including investment return and payroll growth, eligibility for the types of benefits provided, and longevity among retirees. The CalPERS Board of Administration (board) adopts these assumptions after considering the advice of CalPERS actuarial and investment teams and other professionals. Each actuarial valuation reflects all prior differences between actual and assumed experience and adjusts the contribution requirements as needed. This valuation is based on an investment return assumption of 6.8%, which was adopted by the board in November 2021. Other assumptions used in this report are those recommended in the CalPERS Experience Study and Review of Actuarial Assumptions report from November 2021.

SOUTH PLACER FIRE DISTRICT INTEROFFICE MEMORANDUM

TO: BOARD OF DIRECTORS

FROM: CHIEF MARK DUERR

SUBJECT: BOARD MEETING AGENDA STAFF RECOMMENDATIONS

DATE: WEDNESDAY, SEPTEMBER 13TH. 2023

CC: BOARD SECRETARY KATHY MEDEIROS

Agenda Item: Board Support for Assembly Constitutional Amendment (ACA) 13:

Action Requested: Staff recommends discussion and approval of supporting ACA 13.

Background: A constitutional amendment was recently amended by Assembly Member Christopher Ward, Assembly Constitutional Amendment 13, related to ballot measures. There is a significant interplay between ACA 13 and Initiative 21-0042A1 (The Taxpayer Protection and Government Accountability Act). The successful passage of ACA 13 is expected to protect public agencies from the potentially disastrous effects of the initiative measure, which has qualified for the November 2024 ballot. Therefore, staff suggests supporting Assembly Member Ward's ACA 13.

ACA 13, if passed by two-thirds of the California Legislature, would propose to voters the following:

- If an initiative constitutional amendment includes provisions that impose vote thresholds greater than a simple majority of votes cast, then that initiative constitutional amendment must receive a percentage of votes in support equal to those increased vote thresholds.
 - o i.e., if an initiative constitutional amendment includes a provision that would impose a supermajority (e.g., three-fifths, two-thirds, four-fifths, etc.) voter approval threshold, then that initiative would be required to gain the approval of the same super majority (three-fifths, two-thirds, four-fifths, etc.; whatever threshold the initiative proposes) of California voters in order to pass.
 - o if the initiative constitutional amendment includes provisions that impose a supermajority vote threshold and fails to gain the corresponding supermajority of voters in support of the underlying amendment, the initiative constitutional amendment would not be considered approved, thereby failing in its entirety.

As you may recall, The Taxpayer Protection and Government Accountability Act (Initiative 21-0042A1) imposes thresholds requiring the approval of two-thirds of voters in various places throughout the text of the measure. The successful passage of ACA 13 would mean that Initiative 21-0042A1 would also be required to garner the approval of two-thirds of voters for the initiative constitutional amendment to be considered approved; failure to garner the approval of two-thirds of voters in this scenario would mean that the entire measure and all its provisions would fail to become law.

Impact: Negative impact on future funding options.

RE: Assembly Constitutional Amendment 13 (Ward) - Support [As Amended August 17, 2023]

Dear Assembly Member Ward:

The South Placer Fire Protection District is pleased to support your Assembly Constitutional Amendment 13, related to protecting the majority vote. The South Placer Fire Protection District is a special District serving the communities of Granite Bay, Loomis, and the southern areas of Penryn and Newcastle. SPFPD covers approximately 55 square miles and serves a population nearing 42,000. The community is characterized as a bedroom community with high-end value homes and light commercial development. The average square footage for new residential homes is over 6,000 square feet, with many homes over 12,000 square feet in size. The Loomis Basin is home to many family orchards and small ranches, keeping with the Town of Loomis' motto, "A small town is like a big family." The wildland-urban interface threat is the biggest hazard to the entire South Placer Fire District. Other major hazards include two Southern Pacific railways, Interstate 80, and a Kinder-Morgan High-Pressure Fuel Line running along the railway.

Today, SPFD operates four staffed stations. SPFD operates four advanced life support (ALS) engine companies and two ALS transporting ambulances. These crews also cross-staff wildland apparatus assigned to each station during the wildland firefighting season. SPFD responded to over 4,100 calls for service in 2022, with approximately 70% of those being emergency medical responses. In 2022, the District conducted a benefit assessment to increase revenues and maintain staffing. That process was unsuccessful and resulted in the closure of a second fire station and a reduction in staffing. This process was difficult within a simple majority approval process and would be untenable if a supermajority vote was required under the proposed changes in Initiative 21-0042A1 (The Taxpayer Protection and Government Accountability Act). If a two-thirds vote is appropriate to change funding, it should be appropriate to change the constitution.

Under current law, an initiative constitutional amendment that proposes to amend the California Constitution requires a simple majority of voters casting votes in favor of the measure for the amendment to be approved. Notably, this simple majority requirement is irrespective of any of the provisions contained within the proposed constitutional amendment; should the text of the proposed constitutional amendment contain provisions that would otherwise require voter thresholds in excess of a simple majority in the future, those increased vote thresholds may nonetheless be imposed with a simple majority of voters. Phrased another way, this allows a simple majority of voters to insert a three-fifths, two-thirds, four-fifths, or higher vote threshold into the California Constitution, even without the corresponding level of support in terms of votes cast in favor of the original amendment proposal.

ACA 13 would propose to California voters a solution to this problem with the initiative process: if placed on the ballot by the California Legislature, California voters would be asked to decide whether an initiative constitutional amendment containing provisions that increase vote thresholds should be required to attain the same proportion of votes in favor of the amendment that the proposed increased vote thresholds would demand. In this way, ACA 13 would ensure that a proposal cannot impose vote thresholds on our communities and our State that exceed the level of support for imposing such thresholds.

ACA 13 protects the democratic process in local communities by ensuring that a simple majority of statewide voters cannot restrict the will of a supermajority of voters in a local community. For these reasons, the South Placer Fire Protection District is pleased to support Assembly Constitutional Amendment 13. Please feel free to contact me with any questions.

Sincerely,

SOUTH PLACER FIRE DISTRICT INTEROFFICE MEMORANDUM

TO: BOARD OF DIRECTORS

FROM: LOCAL 522

SUBJECT: BOARD MEETING AGENDA STAFF RECOMMENDATIONS

DATE: WEDNESDAY, SEPTEMBER 13TH. 2023

CC: BOARD SECRETARY KATHY MEDEIROS

Agenda Item: Labor Report:

To the SPFD Board of Directors

Your Local 522 members would like to thank the Chief and Board for allowing us this platform. Our goal is to improve our communications and explore opportunities together to address our District's challenges.

The Local 522 membership consists of the Battalion Chiefs, Captains, Engineers, and Firefighters. We have been busy working with Administration to get all District policies into one format (Lexipol). Even though this has been a very lengthy process, we understand and appreciate the importance of working together to get these policies written in such a way that will accomplish everyone's goals and objectives.

Our request is to formally collaborate with Administration, and the Board of Directors to address the issues outlined in the recent Grand Jury report and to develop a shared District plan utilizing the recent IAFF Standards of Cover report, the District's Master Service study and the County's Municipal Service Review.

We believe attracting and retaining good employees, providing them with valuable training and job experience is tantamount to providing good service. Our employee retention and recruitment challenges continue and we believe they threaten the future of our district as much as any financial problems we have.

All of the above issues are linked and only by working together can we properly address them and meet our District's Mission to "Provide Exceptional Service to Our Community".

Thank you, Local 522
